
Simple Nightlight Switch

Combination switch with LED guide light, with automatic ambient light sensor

The Deako Nightlight Switch provides lighting assistance in the dark helping you navigate bathrooms, staircases, children's bedrooms, nurseries and other areas where a guide light helps to improve safety in the dark.

A daylight sensor detects the light level to automatically turn the LED guide light on when ambient light is low, and off when ambient light is high

Features

- Timer daylight sensor detects the light level to automatically turn the LED guide light on when ambient light is low, and off when ambient light is high
- Guide light features a warm- white color
- Long-lasting energy-efficient LED with long life expectancy
- Includes opaque lens diffuser to control light brightness

Applications

Perfect for bathrooms, kitchens and hallways.
