

deako®

**Your home comes equipped with
Deako's whole home modular lighting system.**

Easily and safely replace your switch with any Deako specialty switch in seconds.
No need to schedule an electrician and no special tools required.

**Add a touch of ambiance, convenience, and security to
transform your home with Deako.**

SECURITY

Set smart switches to turn lights on when you're away or to light up the house before you get home.

WHOLE HOME EXPERIENCE

Deako gives you the ultimate flexibility to create the right ambiance in any room, with added convenience and energy-saving solutions throughout the home.

TOTAL CONTROL

Use the Deako app to control when lights turn on/off from anywhere or use your voice to ask your favorite voice assistant to help.

FAQS

How do Deako Smart Switches work?

Deako Smart Switches and Smart Dimmers can be controlled directly at the switch, from the Deako mobile app or even with smart home assistants like Amazon Alexa or Google Home. You can create scenes like Sunrise/Sunset, Timers, and Schedules to automatically program when certain lights turn on/off or even set different brightness levels for any mood.
