# Product Catalog

---

Deako gives you the freedom  
to personalize lighting for  
your lifestyle

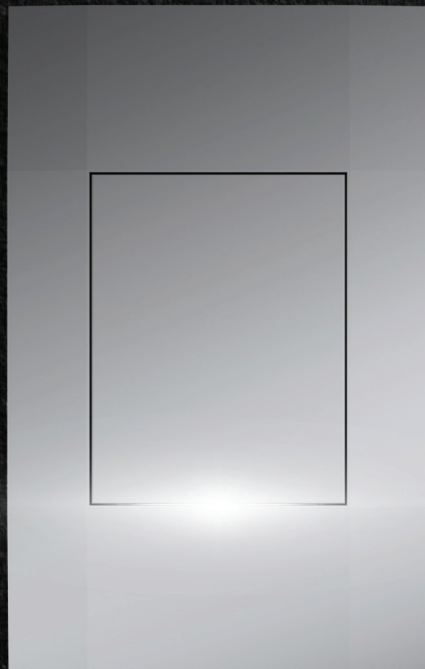

# Upgrade in seconds

Deako's modular system installs in seconds - without hiring an electrician or even turning off the power.

# Smart Switch

Take total control of your lighting—or let it run all on its own. The Smart Switch helps you do both.

## Control from anywhere

Hand's full? Use your voice assistant to help turn lights on or off. Still at work or out of town? Use the Deako mobile app for full control from anywhere.

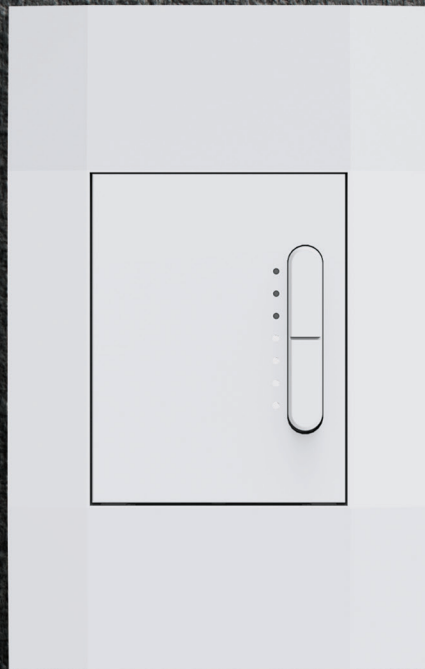

## Set schedules for added security

Keep your home safer with outdoor lights that automatically turn on at dusk and off at dawn.

## Whole-home system

Running late and forgot to turn off the lights upstairs? No problem. With a long press, any Smart Switch can be programmed to turn all your lights on or off as you head out the door. And at night, the Beacon™ Light Bar's soft glow makes it easy to locate switches in the dark—no more fumbling or stubbing toes.

# Smart Dimmer

**Automate and set your ideal brightness for any occasion with the ultimate smart dimming control.**

## Unwind

Schedule your lights to dim automatically in the evening. Relaxing has never been easier.

## Set the mood

When you're cozy on the couch or in bed, use your voice assistant to dim the lights.

## Bring it all together

Black out the living room, dim the hallway, and set a soft glow in the kitchen for easy popcorn re-fills. Link Deako smart devices across multiple rooms and spaces for the ultimate movie night ambiance.

# Smart Plug

---

**Connect lamps and string lights to your Deako smart-lighting system.**

## **Build ambiance**

Schedule your decorative lighting for effortless ambiance every evening.

## **Fit seamlessly**

The side-plug fits in tight spaces and behind furniture without blocking the second outlet.

## **Extend control to anything with a plug**

Plug in a fan, space heater, coffee maker, or other electronic devices for additional smart home control.

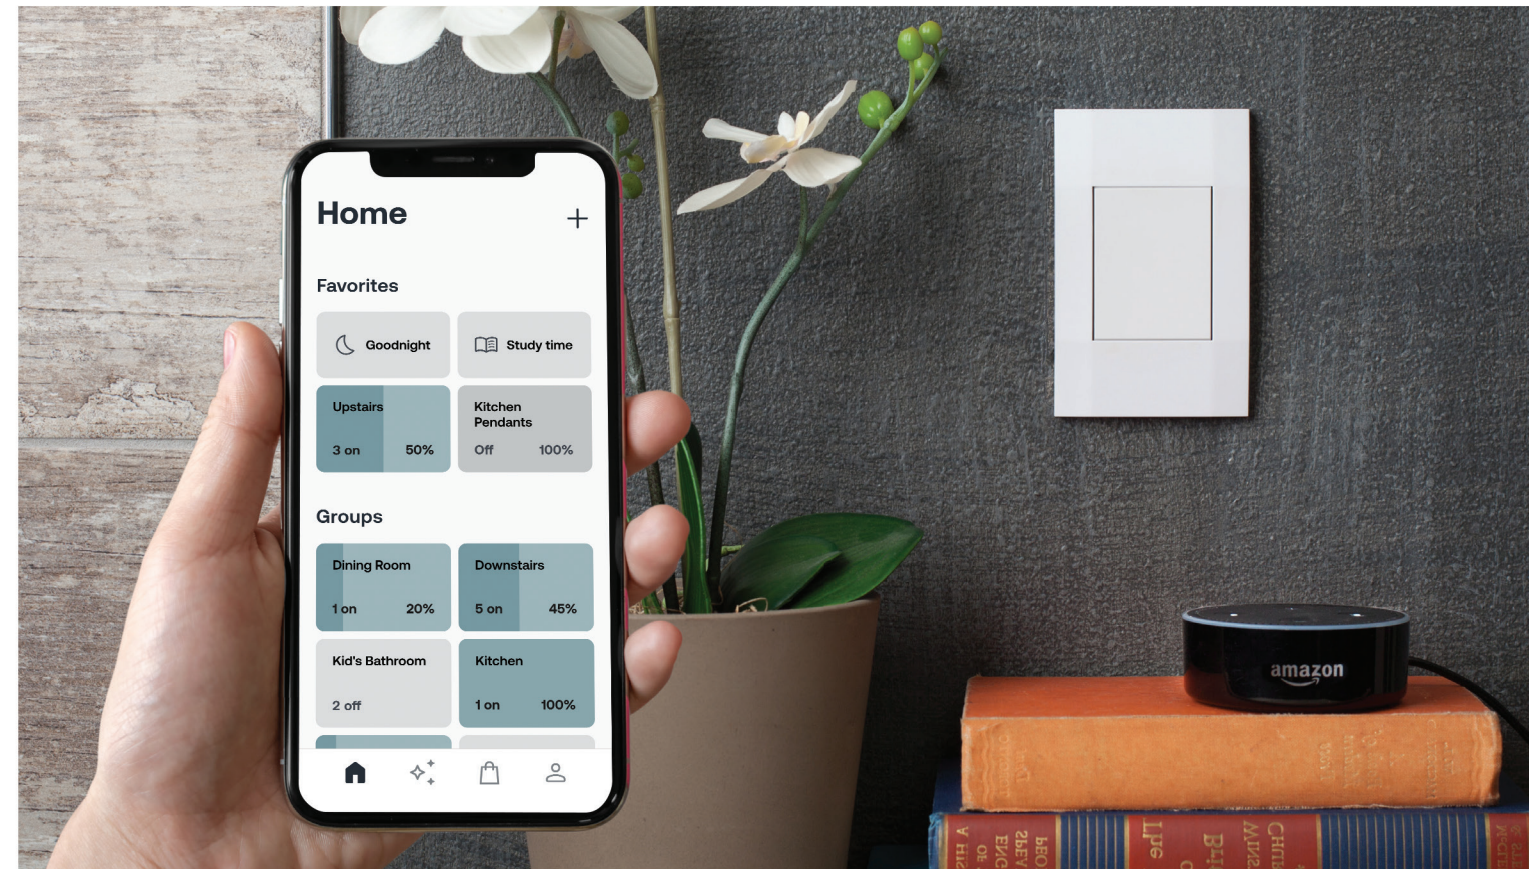

# Smart-home integrations

## Make your life easier

Deako smart devices can be added and controlled through these popular apps, too.

- ADT/Alarm.com
- Amazon Alexa
- Clare
- Control4
- Google Home
- Samsung SmartThings

## Voice control

Use your favorite voice assistants like Amazon Alexa and Google Home to control your Deako smart devices.

## Elevated safety and security

Add Deako smart lighting to Alarm.com to immediately turn on, amplify alerts, or create automatic responses to emergencies:

- When you unlock the door
- When your smoke or CO alarms activate
- When your camera detects visitors

# Simple Dimmer

Make a room cozier in seconds  
with easily adjusted lighting.

## Simplified

Install and dim in less than 30 seconds.

## Adjustable

The smooth and responsive slider lets you set  
your desired brightness levels right at the switch.

## Just right

The perfect ambiance is always at your fingertips.

# Simple Motion Switch

Motion sensors automatically turn on the lights when you walk in and turn off after you leave.

## Hands-free

Carry laundry or groceries without fumbling for the lights.

## Dependable

You never have to worry if you remembered to turn off the lights with this switch.

## Made for humans

Animal lovers, rejoice! Your sensor won't waste energy turning on when pets wander in.

# Simple Timer

Save energy and your peace of mind with a switch that turns off on its own.

## Don't worry

You can stop babysitting the bathroom fan. It will turn off when the timer runs out.

## Save energy

Choose a 10-, 30-, or 60-minute timer for however long you need to run your fan or light.

## Stick around

Override the timer by pressing the switch for two seconds. Then the lights stay on until you flip the switch.

# Simple Nightlight

---

**Add the comfort of a nightlight  
to a dark room with this  
easy-to-find switch.**

## Comfort

Ease kids worries with a warm LED light that would spook any bogeyman.

## Guide

Safely move around your house at night without turning on the lights.

## Locate

Find the switch right away in any dark space or hallway.

# Simple Ceiling Fan Controller

---

Adjust ceiling fan speeds without stretching to grasp a pull chain.

## Strain-free

Stop reaching for a pull chain. Put your fan control right next to your light switches.

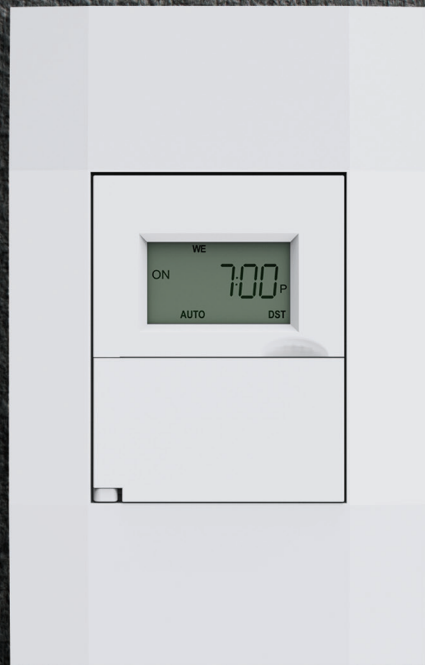

## Flexible

Adjust the slider for a low, medium, or high speed setting.

## Straightforward

Install and control your fan in less than 30 seconds.

# Simple Astronomical Timer

Keep your home safer with  
outdoor lights that automatically  
turn on at dusk.

## No app required

Add simple automation to your outdoor lights without an internet connection.

## Works from dusk to dawn

The astronomical timer matches sunset and sunrise throughout the year.

## Stores your program

Internal backup battery saves settings so you won't have to re-program the switch after a power outage.

# Simple Ventilation Timer

Designed to regulate and ensure proper ventilation, expelling stale air and improving air quality - automatically.

## Custom

Adjustable dial for setting hourly fan runtime.

## Energy Efficient

Rebate eligible and compliant with energy codes.

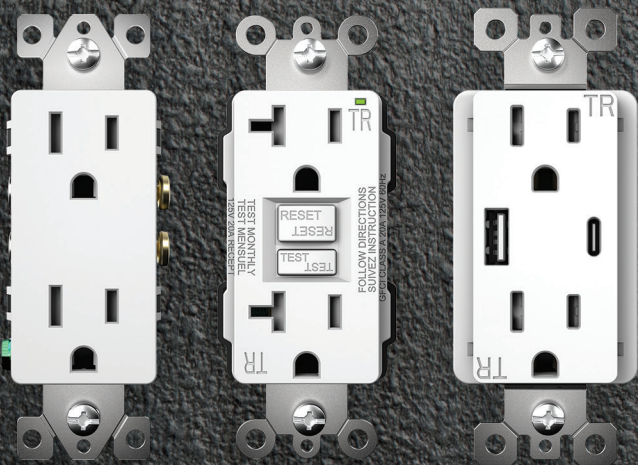

## User-Friendly

Simple timer settings allow the fan to run for short durations every hour, optimizing energy usage while meeting today's indoor air quality standards.

## Convenient Control

Easily manage home ventilation for better air quality.

# Outlets and Covers

Complete the look in every room with style and function. Effortlessly match Deako's switch design and elevate the aesthetics in every home.

## Sleek Design

Matches Deako switches for a cohesive look.

## Advanced Safety

Continuous protection with self-testing GFCI features.

## Smart Charging

Optimized USB ports (Type A and C) for fast, versatile, and convenient charging.
